Summary & Objective

I'm having **5+ years of experience** working in a corporate environment as a **Front-end and UI developer**. Strong technical skills in complex web app development including web-based applications. Experience in **system analysis, design, workflow architecture, development, testing, and maintenance** of web-based applications.

Work History

Senior Software Engineer

- July 2021 - Current

Encora, Bangalore

- I use managed the front-end implementations of the new features. Will be ensuring clean code every time. Working with Angular, TypeScript, and JavaScript.

UI Developer

- April 2020 - July 2021

Testsigma, Bangalore

- Built highly functional web applications using JavaScript, TypeScript, MVC, Angular 2+, Docker, Tomcat, Apache Web Server, HTTP Server, HTML5, and SASS/SCSS by following the agile-sprint methodology.

Front End Developer

- November 2017 - March 2020

GoProtoz, Bangalore

- Coded using HTML, CSS, JavaScript, and Angular to develop features for both mobile and desktop platforms.

Web Designer

- April 2017 - November 2017

Spiderwebindia, Bangalore

- The primary role was to develop the pages and create components for new features of the application. Have learned more about SEO and the user accessibility process.
