SANKAR S
UI Developer/Front End Developer

sssankarsam@gmail.com | [LinkedIn® Profile](#) | [Portfolio® Website](#) | +91 9688472518

PROFILE SNAPSHOT:

A **UI Developer** with *6+* years of experience in Front-end and UI development worked in *FinTech and healthcare domains.* A *unique characteristic* professional who specializes in *Angular 2+, JavaScript*, and Azure DevOps. Experience in system analysis, design, workflow architecture, development, testing, and maintenance of web-based applications.

FUNCTIONAL EXPERTISE:

- **Front End Development**
- **Angular 2+**
- **JavaScrip, TypeScript**
- **UI Development**
- **Redux.js**
- **HTML, CSS, SASS**

NOTABLE ACHIEVEMENTS:

- Integrated Auth0 login implementations in the existing applications. also implemented role-based permission and access in existing applications within two weeks of time duration.
- Upgraded the older version of Angular 6+ to the new version of Angular 15. fixed the packages, and third-party library issues, and modified the syntax issues.

FUNCTIONAL EXPERTISE DEMONSTRATED:

INTEGRACONNECT

May 2023 – Present

A Product-based firm with 600+ employees, ~$261.0 million in revenues, and clients/partners like EHR and EMS.

Senior Software Engineer

Working as a senior software engineer with a team of 15 members. I handled the UI works and API integration. Used Redux for state management and Jasmine for testing.

- **Angular:** Writing maintainable and extensible code in a team environment using Angular 15. Modified existing codes to correct errors, upgrade interfaces, and packages, and improve performance.
- **TypeScript:** used TypeScript for managing the functionality part including API integration also Unit testing part.
- **Redux:** For managing application state using Redux.js. using this to handle the data across the application.

ENCORA

July 2021 – April 2023

A Service-based firm with 15,000+ employees, ~$900.0 million in revenues, and clients/partners like Movoto, Servicelink, and DHL.

Senior Software Engineer

Worked as a senior software engineer with a team of 10 members. Worked in Fintech and mortgage domain-related projects.

- **Angular:** Developed the new features and functionality using Angular and Participated in both Internal and External Reviews. Worked on task estimations and deadlines and gave demos to customers and stakeholders.
- **TypeScript:** Integrating the Backend API to the Frontend (UI) modules and verifying the data in Cosmos DB. Written Unit test cases for every scenario and verified that the code was working correctly using Jasmine and Karma.
- **Micro front end:** Used micro front end for managing different versions of Angular applications connected with a single application.

TESTSIGMA

April 2020 – Jul 2021

A Startup Product-based firm with 150+ employees, ~$1.7 million in revenues, and clients/partners like Samsung, IEEE, and Honeywell.

UI Developer

Worked on the small startup team and created Automated Testing Web Applications using Angular 12+, HTML, JavaScript, TypeScript, MVC, and SCSS by following the agile-sprint methodology.

- **Angular:** Used Angular material for constructing attractive, consistent, functional web pages & web applications. Used Angular material components in the application.
- **REST API:** Involved in writing application-level code to interact with APIs, and web services using Ajax, JSON, and angular resources.Implemented dynamic pagination for handling a huge collection of data.
- **Data Visualisation:** Used Data visualization method for the graphical representation of information and data. Used visual elements like charts, graphs, and maps, data visualization tools to provide an accessible way to see and understand trends, outliers, and patterns in data.

GOPROTOZ

November 2017 – March 2020

A Startup Service-based firm with 50+ employees, ~ clients/partners like Sony, Paytm Money, and ITC.

Front End Developer
